

THE AXLELESS® ADVANTAGE

WHAT COULD YOU DO WITH MORE?

Axleless, low-floor solutions by STANCE are a turning point in trailer tech. The patented, independent air-ride system eliminates rear axles yet maintains GVWR. Lift for driving, kneel for entry and loading. Achieve improved safety, capacity, efficiency, and flexibility, all while enjoying a ride that is far more comfortable, stable, and easier on equipment than traditional trailers.

Pre-Manufactured Modules or Custom Builds for Any Mission

STANCE Axleless technology is available in two, four, and six-wheel modules that can quickly be incorporated into existing programs, or as complete, custom builds limited only by your imagination. The platform is infinitely adaptable and STANCE will partner with you every step of the way on a solution tailored to your unique needs.

**[Patented Axleless technology
not available anywhere else**

**[Improved safety, capacity,
efficiency, and flexibility**

**[Available either as modules
or complete custom builds**

**[Applications for government,
mobile medical, workforce
development, and more**

THE AXLELESS® ADVANTAGE

SAFETY

A low center of gravity makes STANCE more stable than traditional trailers and provides superior under-ride protection for fellow motorists. Low entry points make work safer.

CAPACITY

STANCE offers up to 30% more interior volume and takes on extra-tall loads. Space is maximized. Ergonomics, storage, and access to critical systems are improved. Size matters.

EFFICIENCY

STANCE's kneel-down suspension brings trailer entry to the ground, cutting complexity and boosting productivity. No need for lifts or other problematic mechanisms. Game changed.

FLEXIBILITY

Low floor, high roof... It's a whole new world of design options. For applications that demand configurable, adaptable space, STANCE has no equal. Imagine the possibilities.

APPLICATIONS

Government and D.O.D.

STANCE is ideal for transport, incident management, telemetry, test range services, and other mission types in the public sector. Our customer success pro's can help with your spec and assist with the procurement process. World-class STANCE manufacturing will net a winning solution.

Education + Workforce Development

For colleges, educational associations, businesses, correctional institutions, and others seeking durable, mobile infrastructure, STANCE is the right solution. Put the technology and amenities of brick-and-mortar learning right where they're needed. Experience the ergonomic benefits of low entry points and a high roof.

Mobile Medical + Laboratory

Bring essential services to those in need. STANCE offers exceptional ease of entry and configurable interior space to accommodate any type of practice. Plus, the soft suspension protects sensitive equipment. Imaging and screening, lab work, radiology, and even mobile surgery... We'll help you serve with excellence.

More! You Imagine, We Build

The STANCE advantage — unmatched safety, measurable efficiency gains, and incredible design flexibility — is valuable in every industry. No one else can offer patented Axleless suspension and the low-floor, high-roof space it affords. If your solution calls for a trailer or mobile, durable infrastructure, STANCE has no equal.

Let's create something great together.
